**A Hellish Underworld
Where Nothing
Separates the Good
Guys from the Bad**

Troy Jensen could do it all: he conquered the Seven Summits, sailed solo around the world twice, and even fought a bull in a Mexican slum on a dare. When word comes that a rogue wave has swept Troy off a crab fishing boat in the Bering Sea and into a watery grave, his brother, Jack, doesn't buy it.

Jack charges headlong into the deepest recesses of America's most secret and feared intel group in order to uncover the truth about Troy's disappearance. Along the way, Jack learns that the civilian world's rules of fair play don't apply to this brutal new world that has swallowed him whole—especially when he crosses paths with the leader of RCS, a man firmly committed to destroying America in order to protect it.
